Theme #1: Mutual Understanding of the Current Status

Mutual Understanding of the Current Status of Data Collaboration in Japan and Germany

- Comments from Germany on Japan's Initiatives
- Comments from Japan on Germany's Initiatives

Theme #2: Ensuring International Interoperability

Ensuring International Interoperability

- Japan's Expectations for Germany and Areas in which Japan Can Cooperate
- Germany's Expectations for Japan and Areas in which Japan Can Cooperate

Theme #3: Implementation of a Digital Ecosystem

Toward the Implementation of a Digital Ecosystem,
it is important to increase the entities actively engaging in data
collaboration and foster the creation of a digital ecosystem.
What initiatives are being undertaken in Japan and Germany
to enhance value creation in manufacturing, and what challenges
have emerged from these efforts?
